

USMAN ALI AWAN

Islamabad, Pakistan | +92 349 1083421 | i.usman.ali85@gmail.com | linkedin.com/in/malik-usman-4607b6294

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building scalable web applications and RESTful APIs. Python programmer with a strong Computer Science foundation (BSE, COMSATS 2021–2025) complemented by commercial full-stack expertise in React.js, Node.js, and MongoDB. Experienced in RESTful API design, JWT/OAuth2 authentication, database management, and Agile delivery. Proactive team contributor with a demonstrated record of owning solutions end-to-end and mentoring junior developers.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+)

Python & Backend: REST API development, FastAPI (learning), Django (fundamentals), pytest, data scripting & automation

Frontend: React.js, Next.js, Vue.js, HTML5, CSS3

Databases: MongoDB, PostgreSQL (basic), Redis (basic), Firebase

APIs & Auth: RESTful API design, JWT, OAuth2, Third-Party API integration

Cloud & DevOps: AWS (S3, EC2, Lambda), Docker (basic), Git, GitHub, GitHub Actions, Vercel

Principles: SOLID, clean code, unit testing, component architecture, Agile/Scrum, code reviews

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Feb 2023 – Sep 2023

Self-Employed (Freelance) | Remote

- Designed and built scalable web applications independently — owned architecture, RESTful API development, JWT authentication, MongoDB schema design, and production deployment.
- Developed reusable React.js front-end components; integrated third-party APIs and optimized application performance for production environments.
- Wrote and maintained test coverage for API endpoints; managed full project lifecycle from requirement gathering through client delivery.

Assistant Manager – Information Technology

May 2022 – Present

RMRSO Pvt Ltd | Islamabad, Pakistan

- Oversee IT infrastructure, network systems, and business applications ensuring continuous operational uptime; lead cross-functional troubleshooting and vendor management.
- Mentor junior staff on technical processes; lead IT project planning, implementation, and stakeholder coordination end-to-end.

Chief Lead Officer

Aug 2025 – Feb 2026

National Youth Leadership Program | Remote

- Mentored and led a distributed remote team across planning, performance reporting, and stakeholder communication in an Agile-style environment.

E-commerce Developer (Shopify)

Feb 2023 – Feb 2024

Self-Employed | Remote | Part-time

- Built Shopify storefronts with custom backend logic, API integrations, SEO, analytics, and A/B testing for conversion optimisation.

Web Developer – Intern

Jan 2022 – Mar 2022

Codematics Inc. | Abbottabad, Pakistan

- Contributed to React.js and Vue.js frontend development; participated in code reviews, improved UI consistency and component accessibility.

EDUCATION

Bachelor of Software Engineering

2021 – 2025

COMSATS University Islamabad, Abbottabad Campus, Pakistan
